## History of Weathersfield

The town of Weathersfield was chartered as part of the Province of New Hampshire by Benning Wentworth, Governor and Commander-in-Chief August 20th, 1761. Settlement began in the town of Weathersfield before 1765 and organization took place in 1768.

Many of the grantees lived around New Haven, Connecticut, so the town's name probably derives from Wethersfield, one of the smaller communities in that area. Originally the name of the Vermont town was spelled the same way as is in England and Connecticut, but the "a" slipped into the Vermont spelling very early.

The Connecticut town was named in 1637 for Wethersfield, Essex, England, where the name originally referred to a field associated with a wether (from the Old English wither), or castrated ram. Wethers often were trained to lead a flock of ewes to and from pasture. When the Vermonters put the "a" into their town's name, they lost its old pastoral meaning, which would have been appropriate in view of the sheep boom that later made Weathersfield one of the most prosperous towns in the state.

One Jonathan Allen, an early settler in town, was a veteran of Bunker Hill and had the scar to prove it. One of his ears was lopped off by his own commander because he had fired on the British before the order was given.

In 1830 a post office was opened at the village which is now known as Ascutney. The office was named just Corners (not Weathersfield Corners, as was intended). When the application forms were made out for the post office, Weathersfield's name was put in the proper place for the town's name and Corners was put in for the village name, the assumption apparently that any fool could see the village name was Weathersfield Corners. But the postal authorities weren't just any fools: they took the name exactly as they read it, and for twenty years the office was just Corners.

At some point it occurred to someone that Corners lay in the shadow of Mount Ascutney, so in 1851 the name of the post office was changed to Ascutneyville. In 1924, during one of Washington's periods of trying to tidy up postal names, the -ville was dropped, and the village has been Ascutney ever since. Ascutney is a very old Abnaki name for the mountain, possibly meaning a place "at the end of the river fork." Although Weathersfield has the village of Ascutney and Little Ascutney Mountain, the main peak of Mount Ascutney is over the line in the towns of Windsor and West Windsor.

Ascutney Mountain, a detached peak 3,144 feet high, is partly in the town and has a ski resort area [located in the adjoining town of West Windsor). According to other sources, the word Ascutney is said to come from the Indian word cascarnac, meaning a peak with steep sides.

At the southeast, the Connecticut River makes a queer bend, long called Weathersfield Bow.

Broadcloth, cassimere and satinet were formerly made in great quantities here. In 1811 William Jarvis, then Consul to Portugal, brought to Weathersfield from Spain, a world-famous herd of 3,500 Merino sheep. They were some of the first of this breed to be introduced into the United States, and in 1840 over 10,000 were owned in Weathersfield alone.

Weathersfield is also noted for its fine Holstein cattle and English-bred horses. Paint, soapstone products and printing ink were formerly made here. [The Vermont Soapstone Company was re-organized in the 1970s and today, again, produces soapstone products in Perkinsville.]

There were 136 Weathersfield men who served in the Civil War, and it is believed to be the highest proportion of any town in the Union states.

## 2018-2019 Tax Billing

By law, taxes are levied on property as it exists for the owner of record on April 1st prior to the start of the tax year. Tax bills are mailed to the April 1st owner of record at the address on file with the Lister's Office. If all or a part of the taxed property is sold, it is the seller's responsibility to forward the tax bill to the new owner.

**Failure to receive a tax bill does not relieve any taxpayer of responsibility to pay the property taxes, interest or penalties when they become due to the Town of Weathersfield.**

### Installment Dates

Due dates, deadlines to pay, interest and penalty fees are all voted on at the Annual Town Meeting. ONE BILL will be sent at least 30 days prior to the first due date. **This is the only bill you will receive** and also includes applicable Village taxes. You will **NOT** receive a notice of payment due for the final installment. This bill includes four installment coupons attached to the bottom and you may pay it in full or in installments as follows:

- **FIRST installment due and payable at the Town Office by 5:30 PM on August 8, 2018**
- **SECOND installment due and payable at the Town Office by 5:30 PM on November 7, 2018**
- **THIRD installment due and payable at the Town Office by 5:30 PM on February 13, 2019**
- **FINAL installment due and payable at the Town Office by 5:30 PM on May 8, 2019**

Any installment not paid on or before the close of business at 5:30 PM on the due date will be subject to interest on the unpaid principal at the rate of 1% per month for the first three months and 1.5% thereafter per 32 V.S.A. §4873. An 8% penalty on the unpaid principal will be charged if payment is not received in full on or before the close of business at 5:30 PM on the final installment due date as provided by 32 V.S.A. §5136.

You can pay property taxes more frequently than the four installments.
