Call to Order

Mr. Todd called the meeting to order at 6:46pm.

Purpose

A Town Highway is on private property. Town Highway #95 is listed as a class 4 highway .25 miles in length on the 2019 highway mileage map. It is on some maps but not others but it is in the states system as a class 4 impassable road. The Town is responsible for the maintenance of the road.

Site Examination

The Select Board evaluated the start of the road's intersection at Cooks Pond Road, which proceeds east for .25 miles over parcel spam #705-224-10852 (Keniston). It does not connect to a neighboring parcel or appear to be a right away to any other parcel, and is entirely on Mr. Keniston's property. There is no road mentioned in Mr. Keniston's deed and that he owns both joint lots.

Findings

The Select Board found that the road to be unidentifiable from the surrounding field, with no evidence of an existing road or lane and that the site was different in-person than the maps show.

Adjournment

Mr. Todd adjourned the meeting at 6:56pm.

Respectfully submitted,
Nichole Gagnon
